Your Stock Tokens earn a share of every trade's fee, and you see what you keep before you deposit.

Stock Token pools trade while Nasdaq sleeps: 58% of their swaps land outside NYSE regular hours. Uptick is launching vaults that put a Robinhood Stock Token to work as Uniswap liquidity on Robinhood Chain and earn those fees. We ranked 17 Stock Tokens by replaying 3,059,881 swaps over the 30 days to 2026-10-17.
